

ASSEMBLING AND ATTACHING THE INSIDE SHELF TO AN ISLAND CORE

Tools Required:
Phillips Screw Driver No. 2 & 3 Tips

Hardware Included in PS-Kit
Included with Shelf:
8 Screws, Pan Head #10 x 1/2"

NOTE 1: For attaching optional shelf lips see "Attaching Shelf End Brackets and Shelf Lips to Shelf" instruction.

1. Place the shelf (A) upside down on a protected work area.
2. Attach shelf brackets (B) with screws (C) as shown.

NOTE 2: Leave the screws loose, the brackets need to slide back and forth during attachment to the island core.

3. Slide the brackets inward and insert the inside shelf between the uprights as shown to the desired height. Slide each of the brackets (B) outward engaging slot (D) and tighten all screws securely.
