Subject: Isolator Gen5 Fume Hoods, Painted End Frames

In our never ending quest to increase value while not impacting the functionality of our Gen5 Fume Hoods, effective 9/1/11 all galvanized steel end frames will be converted to mild steel and painted ~~the same color as the primary color of the hood~~ **a standardized color, Designer Gray #496**. These end frames are not visible when the hood is fully installed, thus there is no impact to the end user.

The following Fume Hoods are affected (**Highlighted items were accidentally omitted on original Bulletin**):
