Subject: FlexCore, New Product Introduction - **Service Column** for 12" Core

JMP is pleased to announce the addition of the **Service Column** for 12" Core to the FlexCore Product Line:

- **Service Columns** are generally used to run services from the ceiling to the Core through a cutout in the center work surface
- The nominal outside dimensions are 6" x 20", while the plumbing access area is 4" x 18". There are two removable panels for access to plumbing within the **Service Column**
- See **Plumbing Access – Service Column & Corner Column** drawing for more details
- Each **Service Column** includes 2 –pc split Top Support Rails, for specified width, to replace 1-pc Top Shelf included with 12" D Core. Also includes all necessary hardware and brackets for attaching **Service Column** to Core.
- **Service Column** paint color must match the primary color of the Core
- Please refer to Installation Instruction #7 and JMP Flex Laboratory System specification for all other information regarding the design and application of this **Service Column**

Service Column for 12" Deep Core

Unit

PSC24	for	24"W	Core
