Subject: FlexCore, New Product Introduction – **Full Height Corner Column, 84”H**

JMP is pleased to announce the addition of the **Full Height Corner Column, 84”H** to the FlexCore Product Line:

- **Full Height Corner Columns, 84”H** are generally used to join two full height Cores at 90° to one another, and to allow services to pass from the floor or ceiling (see Corner Column Ceiling Extension) into the **Full Height Corner Column, 84”H** and then into each of the adjoining Cores
- The nominal outside dimensions are 12” x 12”, while the plumbing access area is 10” x 10”. There are removable panels for access to plumbing within **Full Height Corner Column, 84”H** depending on the final configuration chosen
- See **Plumbing Access – Service Column & Corner Column** drawing for more details
- Each **Full Height Corner Column, 84”H** includes hardware necessary for attaching to adjoining Cores
- **Full Height Corner Column, 84”H** paint color must match the primary and secondary (optional) colors of the Core
- Please refer to Installation Instruction #6 and JMP Flex Laboratory System specification for all other information regarding the design and application of this **Full Height Corner Column, 84”H**
